As a manufacturer

EU type certificate

CERTIFICATE No. 18/0759/01/0161

Has obtained EU TYPE EXAMINATION in compliance with what is set out in Annex V (module B) in Regulation (EU) 2016/425 and in agreement with the applicable test procedures and technical specifications

Anchorage device intended for use as a component or connecting element in personal fall protective equipment, as well as its use in mountaineering, including climbing, and solely intended to be used with personal protective equipment against falls from height, according to the following standard/s:

- EN 566:2017 for slings used in mountaineering, including climbing.
- EN 354:2010 as anchor device used as a component or connecting element in personal protective fall arrest systems.
- EN 795:2012 solely intended for use with personal protective equipment against falls from height (Class B).

Having achieved the performance requirements specified in conformity assessment report No. **2023AT0105UE** and the PPE's Technical Documentation.

Description of the PPE:

The PPE model PAX-SLING consists of multidisciplinary equipment, which can be used as a webbing ring, type B anchorage device or lanyard. This PPE is intended to be used for the prevention of falls from heights..

The model consists of a tape sewn onto itself by seams, forming a tape ring. The tape ring has a width of 25 mm and a height of 1,5 mm. The ends are joined by means of six stitches. The thread of these stitches is white.

The materials that form the PPE, are described in the conformity assessment report nº **2023AT0105UE**.

It shall be the manufacturer's responsibility to provide specific information of this certificate and the tested levels of protection.

The CAT. III PPE shall only be used in conjunction with one of the conformity assessment procedures according to module C2 or module D described in article 19 letter c) of the Regulation (EU) 2016/425.
